Project: White Meadow Lake, Phase 4

Dear Homeowners,

You are receiving this letter as a result of the survey that you returned to New Jersey Natural Gas Company. NJNG will be extending the gas main in White Meadow Lake, phase 4 starting next week. Once we start, it will take approximately 6 months to complete the gas main installation. The completion is based upon the digging conditions and the weather.

Listed below are the costs to the homeowners from NJNG:

1. \$15 one time account opening charge on your first natural gas utility bill.
2. \$8.85 meter charge each month after meter is installed, plus whatever gas you consume.

If you are interested in converting your **CENTRAL HEATING EQUIPMENT at a minimum, the next step would be for you to get an estimate from a heating contractor to replace your heating system.** NJNG does not sell or install any equipment on the inside of your house. NJNG installs both the gas mains in the street and service laterals from the street up to your meter. Your heating contractor performs all the work from our meter to your heating equipment and any other gas appliance you may be installing.

If that estimate fits into your budget and you are still interested in receiving the gas for your heating system, call me at 973.586.4691 to schedule an appointment to complete our application for new gas service.

Feel free to forward this email to any of your neighbors in phase 4 that may be interested in converting their house to natural gas.

Rebate Information:

You can view the current rebates at www.savegreenproject.com or by calling 1.877.455.6564 and speaking to a representative in our Savegreen Department. You can also view our energy calculator on our website to see the savings you will incur by switching to natural gas.

If you have any further questions, please feel free to contact me. 973.586.4691

Regards,

Brian Klinger
Sr. Marketing Consultant

Switch to Clean, Reliable and Affordable Natural Gas Heat

Rebates and incentives to make your conversion to natural gas more affordable!

Option 1

Individual Equipment Rebates/Efficiency Requirements

Use a qualified contractor to install high-efficiency equipment and save! Rebates from The SAVEGREEN Project[®] of New Jersey Natural Gas (NJNG) and New Jersey's Clean Energy Program[™] (NJCEP).

	NJNG	NJCEP*	TOTAL REBATES
Furnace (Minimum 95% AFUE)	\$500	\$250	\$750
Furnace (Minimum 97% AFUE)	\$500	\$500	\$1,000
Boiler (Minimum Hydronic 90% AFUE)	\$500	\$300	\$800
Water Heater (Power-vented and EF .67 or 90% TE)	\$100	\$300	\$400

Rebate questions? Call 877-455-NJNG (6564) to speak to one of our consultants or visit savegreenproject.com.

Option 2

Install Both Heat and Hot Water – You Have Options!

Must use a SAVEGREEN participating contractor. Visit savegreenproject.com to see if your contractor is on the list. Install an NJCEP qualifying furnace or boiler AND an NJCEP qualifying water heater (*Must meet efficiency levels above*). Includes combo units that supply both heat and hot water with a minimum 90% AFUE.

Get \$1,300 in rebates OR up to \$7,200 with NJCEP rebate and 0% APR financing.

Receive \$600 in NJNG Rebates

◀ AND ▶

Receive an NJCEP WARM Advantage
\$700 Combination Rebate

or

Apply for up to \$6,500 at 0% APR
for five years through NJNG's
On-Bill Repayment Program (OBRP).**

Includes qualifying combination units.*

Visit NJCleanEnergy.com/WARM for equipment eligibility, terms and conditions for NJCEP rebates and incentives.

Make the switch to natural gas! Contact an NJNG Conversion Marketing Consultant at 800-221-0051 (at the prompt say: "Natural Gas Conversion"). Questions on rebates and incentives? Contact the NJNG SAVEGREEN Team.

*Information regarding NJCEP rebates and incentives is provided for informational purposes only. NJCEP rebates and incentives are independent of NJNG and not subject to NJNG supervision or control. Visit NJCleanEnergy.com/WARM for NJCEP terms, conditions and equipment eligibility. Call SAVEGREEN to confirm equipment eligibility, terms and conditions or visit savegreenproject.com. ** For example, on a \$6,500 repayment with an APR of 0% and a term of five years, the customer would make 59 payments of \$108.34, and one final payment of \$107.94.

Switch to Clean, Affordable Natural Gas Heat

Option 3

Make Your Whole House Energy-efficient Get up to \$19,000 in Rebates and Incentives

Must use a participating Home Performance with ENERGY STAR® (HPwES) contractor.

Work with a participating HPwES Building Performance Institute (BPI)-certified contractor who will perform an in-depth analysis of your home and provide recommendations to improve efficiency and save you money.

Rebates up to \$4,000 are available based on the total energy savings (TES) achieved in your home. Plus, you may be eligible for \$2,500 to \$15,000 through NJNG's Repayment Program, including a 0% APR OBRP option with no fees, points or closing costs!*

Whole-house upgrades include: HVAC, air and duct sealing, insulation and sealed combustion water heating.

Incentive Tier	Requirements	Rebate Incentive
Tier 1	BPI home assessment/energy audit required to be eligible for HPwES incentives.	None
Tier 2	Estimated TES of at least 5% and less than 20%.	\$2,000 rebate, not to exceed 50% of the costs of eligible upgrades.
Tier 3 (Level 1)	Estimated TES of at least 20% and less than 25%.	\$3,000 rebate, not to exceed 50% of the costs of eligible upgrades.
Tier 3 (Level 2)	Estimated TES of at least 25% or greater.	\$4,000 rebate, not to exceed 50% of the costs of eligible upgrades.

*For example, on a \$10,000 repayment with an APR of 0% and a term of seven years, the customer would make 83 payments of \$119.05, and one final payment of \$118.85. For example, on a \$15,000 repayment with an APR of 4.99% and a term of 10 years, the customer would make 120 payments of \$159.02. Terms, conditions and eligibility requirements apply. Visit savegreenproject.com for more information.
