

Date: March 9, 2017
Project: White Meadow Lake

Dear Homeowners,

Listed below are the costs to the homeowners from NJNG:

1. \$15 one time account opening charge on your first natural gas utility bill.
2. \$8.25 meter charge each month after meter is installed, plus whatever gas you consume.

If you are interested in converting your CENTRAL HEATING EQUIPMENT at a minimum, the next step would be for you to get an estimate from a heating contractor to replace your heating system. NJNG does not sell or install any equipment on the inside of your house. NJNG installs both the gas mains in the street and service laterals from the street up to your meter. Your heating contractor performs all the work from our meter to your heating equipment and any other gas appliance you may be installing.

If that estimate fits into your budget and you are still interested in receiving the gas for your heating system, call me at 973.586.4691 to schedule an appointment to complete our application for new gas service.

Feel free to forward this email to any of your neighbors that may be interested in converting their house to natural gas.

Rebate Information:

You can view the current rebates at www.savegreenproject.com or by calling 1.877.455.6564 and speaking to a representative in our Savegreen Department. You can also view our energy calculator on our website to see the savings you will incur by switching to natural gas.

If you have any further questions, please feel free to contact me. 973.586.4691

Regards,

Brian Klinger
